

# General Practitioners

**Do you enjoy dealing with patients who need urgent care?**

**Do you want work that is flexible?**

**Do you want to enjoy a great work/life balance?**

With North Hampshire Urgent Care (NHUC), that's exactly what you can do whilst being part of a team of local clinicians serving our community. We're looking for GPs to be part of our team.

We're a Community Benefit Society so are not-for-profit and any profits are re-invested. We provide services to 550,000 patients across North and North East Hampshire, Surrey Heath and Farnham. Many of our team have been involved with NHUC for many years and bring a wealth of experience to help support our new colleagues.

**We have centres at Farnborough and Basingstoke serving North East Hants, Surrey Heath and the Sandhurst practice and North Hampshire.**

You can work, either as a self-employed contractor with your NHUC earnings contributing towards the NHS pension scheme or via your personal services company if you prefer.

There are many advantages to being a self-employed GP with NHUC including a broad range of shifts to suit all schedules and to fit around your other commitments – you choose your shift types - from telephone/video consultations, base clinics, home visits or even providing primary care within your local Emergency Department.

NHUC has a diverse range of clinical case load as you would expect in typical general practice and we're locally run by clinicians with a strong local knowledge.

As an organisation, we're very proud of our values and by joining us, you can look forward to walking in our shoes:

**Safe Honest Open Effective Supportive**

**If you are interested in learning more, please contact Lindi Le Clercq, via email: [l.leclercq@nhs.net](mailto:l.leclercq@nhs.net) or give her a call on 07716 092832. Lindi will be able to answer any questions you have and will support you throughout the process from first approach to working your first session.**
